

G5	Richmond Grade 5	Proficiency			
		Q1	Q2	Q3	Q4
	Unit 1: Adding and Subtracting Fractions				
<i>G5.NF.1</i>	<i>Add and subtract fractions with unlike denominators (including mixed numbers)</i>				
1	I can use a number line to show equivalent fractions.				
1	I can use a multiplier or divisor to show equivalent fractions.				
1	I can create fractions chains to show equivalent fractions.				
1	I can use equivalent fractions to add fractions with unlike denominators.				
1	I can find common denominators to add fractions with unlike denominators.				
1	I can create a mixed number from an improper fraction.				
1	I can create an improper fraction from a mixed number.				
1	I can use equivalent fractions to subtract fractions with unlike denominators.				
1	I can find common denominators to subtract fractions with unlike denominators.				
1	I can create a mixed number from an improper fraction.				
1	I can create an improper fraction from a mixed number.				
<i>G5.NF.2</i>	<i>Solve word problems involving addition and subtraction of fractions</i>				
1, 3	I can use visual fraction models to represent and solve word problems involving addition of fractions.				
1, 3	I can write and solve equations that represent word problems involving addition of fractions.				
1, 3	I can use visual fraction models to represent and solve word problems involving subtraction of fractions.				
1, 3	I can write and solve equations that represent word problems involving subtraction of fractions.				
1	I can show benchmark fractions on a number line.				
1	I can use a number line to compare a fraction to a benchmark fraction.				
1	I can use a number line to round fractions to estimate addition of fractions.				
1	I can use number sense to round fractions to estimate addition of fractions.				
1	I can use a number line to round to estimate subtraction of fractions.				
1	I can use number sense to round fractions to estimate subtraction of fractions
